\*Website System ownership is non-transferrable and is intended for the sole use and purpose of listing animals that reside on the client farm in question with the exception of HerdSurfers Animal Support Records.\*\*System Upgrades are product-wide improvements that are implemented by the HerdSurfers Development Team. We do encourage our client's feedback in an effort to continuously improve our system however, free System Upgrades are determined and implemented exclusively by the HerdSurfers Development Team and do not include modifications, changes or additions requested directly by HerdSurfers Website clients. Domain registration, if required, is in addition to the above pricing.

‡IT IS IMPORTANT TO NOTE that annual hosting, upgrades and support costs are not included as part of this package. The website system outlined above must be hosted on HerdSurfers web servers. Internal hosting is a requirement due to the system's integration across the HerdSurfers network as well as the proprietary nature of programming components utilized in development. The System donated the Lloydminster Alpaca Showcase is based on the HerdSurfers "Quechua" Theme interface. Custom interface design is available for an additional cost.
